Buoy Symbols	
	Hazard Area, or Shallow Area, or Rock(s), or Dam - White buoy with an orange diamond to mean danger. Buoy marks rocks, ledges, shoals, dams, or other submerged hazards.
	Red Channel Marker - Marks the right side of a channel when entering the channel from the main water body or proceeding up stream.
	Green Channel Marker - Marks the left side of a channel when entering the channel from the main water body or proceeding upstream.
	"Headway Speed Only" or Safety Zone "Slow" - White buoy with an orange circle to mean the area is subject to certain controls and/or restrictions. The type of control is printed on the buoy.
	Black & White Vertical Stripe - Boat should not pass between the buoy and the nearest shore.
	Red & White Vertical Stripe with a red sphere on top - Center channel marker, boat can pass close by either side.
	Swim Area or Water Intake - White buoy with an orange diamond, having a cross centered within the diamond to mean "No Boats".

This map is intended for reference only and should not be considered 100% accurate nor does it contain all known hazards. Buoys can move and exposure of other hazards depends on water level. Boaters are advised to exercise caution. Friends of Lake Winnecook and its board members are not responsible for any damage, injury or death affiliated with hazards shown on the map or any other hazard.
